● Tamu Domestik
Domestic Guest

Di Sulawesi Tenggara 2024, puncak kunjungan terjadi pada bulan Juli dengan rata-rata lama menginap tertinggi mencapai 1,23 hari untuk tamu domestik mengindikasikan **high season**, kemungkinan dipicu oleh libur sekolah atau event lokal yang mendorong wisatawan memperpanjang kunjungan. Sementara itu, tren menginap tamu asing cenderung stabil dan hampir menyamai pola tamu domestik.

In Southeast Sulawesi 2024, the peak visitation occurred in July with the highest average length of stay reaching 1.23 days for domestic guests indicating a high season, possibly triggered by school holidays or local events that encourage tourists to extend their visit. Meanwhile, the trend of foreign guests' stay tends to be stable and almost matches the pattern of domestic guests.
